Jammu, Jammu & Kashmir, India

EDUCATION DETAILS				
Qualification	Institute	Board / University	Year	% / CGPA
B.Tech CSE (AI/ML)	Amity University Mumbai	Amity University Mumbai	2027	8.22
XII	Army Public School Kaluchak	CBSE	2022	83.2%
X	Army Public School Kaluchak	CBSE	2020	94.6%
CERTIFICATIONS				
LLMOps and AIOps Bootcamp				
Beginner to Advanced MLOps on GCP (CI/CD, Jenkins, Kubernetes)				
Machine Learning A-Z [2026]: ML, DL, AI with AWS, Python & R				
Python A-Z™: Python For Data Science With Real Exercises!				
AWS Academy Cloud Developing				
PROJECTS				
Career Digital Twin Agentic AI Application - Built an AI-powered digital twin chatbot using the OpenAI SDK integrated with Google Gemini LLM to represent a personal profile and answer visitor questions on career, background, and skills. - Grounded responses in personal context by parsing a LinkedIn profile with PyPDF and injecting a career summary into the system prompt. Implemented custom function-calling tools to capture visitor contact details for follow-up and log unanswered questions, with real-time alerts via the Pushover API. - Built an interactive chat interface with Gradio, and deployed the application on Render.				
Multi-Agent AI Application LLMOps Project - Built a Multi-Agent AI Application using LangGraph and LangChain, leveraging Groq LLMs for response generation and integrated Tavily for real-time web search. FastAPI for backend APIs, and Streamlit for an interactive UI. Implemented code quality and security analysis using SonarQube and containerized the application using Docker. - Automated CI/CD with Jenkins, using GitHub as SCM, pushing Docker images to AWS ECR, and deploying the application on AWS ECS Fargate.				
Hotel Reservation Cancellation Prediction End-to-End MLOps Project - Developed an end-to-end MLOps pipeline to predict hotel reservation cancellations. - Implemented experiment tracking with MLflow. Built a Flask web application for cancellation prediction. - Containerized the application using Docker and automated CI/CD workflows with Jenkins, deploying the application to Google Cloud Run via Google Container Registry (GCR).				
TECHNICAL SKILLS				
Programming Languages: C/C++, Python, Java, SQL, HTML, CSS, JavaScript				
Machine Learning: Machine Learning, Deep Learning, Artificial Intelligence, Statistical Analysis, Data Mining, Data Visualization				
AI & LLMOps: OpenAI SDK, SonarQube, LangChain, LangGraph, Cursor, Gradio, Streamlit, Render				
MLOps: MLflow, Comet, TensorBoard, DVC (Data Version Control), Docker, Jenkins, Flask, Google Kubernetes Engine (GKE), FastAPI, Postman, Swagger UI				
Cloud Platforms: Google Cloud Platform (GCP), Amazon Web Services (AWS)				
Tools & Environments: Git/GitHub, Google Colab, Jupyter Notebook, Kaggle Notebooks, Visual Studio Code, Ubuntu				
ACHIEVEMENTS				
Secured 2nd rank overall (School) in Class X (1st rank among boys) out of approximately 300 students.				
Scored 95.59 percentile in English and 91.14 percentile in General Test in CUET (UG) 2023 .				
PERSONAL DETAILS				
Languages	English, Hindi			
Interests/Hobbies	Actively follow and research geopolitics, current affairs, international relations, and advancements in defence technologies.
